Subject: Adur and Worthing Weekly Lists

Dear All,

Please see the attached for comments relating to the most recent weekly lists. Those applications which require the addition of the potentially contaminated land precautionary or full conditions have been highlighted in green and red, respectively. The orange application (ref.: AWDM/111/12 for Loose Lane, assigned to Peter Barnett) may cover an area of potentially contaminated land; confirmation on the works boundary would please be appreciated to ensure the appropriate condition is advised.

Many thanks,

Kate.
