

Customer Name: Mr and Mrs Albanie
Address: 57 Dorchester Gardens, Worthing, BN11 5AY
Quotation Dated: 27th November 2025

Firstly, we would like to thank you for the opportunity to quote on the glazing works that you require. We hope we have captured your items correctly, but please read through quoted items below and advise if you have any changes to make?

Installation details

- Remove and dispose of existing and supply and install new frames as shown below
- White (to both sides) Upvc windows
- White locking handles to windows
- Double glazed ‘A’ rated units using clear glass, using toughened where required
- Trickle vents are now added to all frames so that they adhere to the doc ‘L’ guidelines. Trickle vents help to keep the air in our homes fresh and clean, as well as keeping condensation out and lowering humidity in a room.
- All items viewed externally and arrow points to hinged side

Location	Details	Cost
Bedroom 1 window	Sized 1 @ 1180 x 1160. To be a tilt and turn window. Additional cost to have white integral blinds applied £262.00 inc vat  No.3	
Bedroom 2 window	Sized 1 @ 860 x 1200. To be a tilt and turn window. Additional cost to have white integral blinds applied £226.00 inc vat  No.4	

We also supply and install integral blinds. Please advise if you would like a costing for these?

Integral Blinds Information - Integrated blinds are permanently sealed inside the cavity of the unit, having the added benefit of being out of harm’s way, in between the glass, so they cannot be damaged and do not need to be cleaned.
Venetian blinds, with their horizontal slats allow adjustment of light entering your room even when the blinds are fully lowered. They offer privacy while still allowing the light to flow in if you wish – simply adjust the direction of the slats.
Pleated black out blinds are manufactured from woven polyester fabric which prevents light transmission.
