Biodiversity net gain

Biodiversity net gain is a legal requirement for planning permission introduced on 12 February 2024. All applications are required to either provide detailed information proving there will be a biodiversity increase; or explain why the requirement does not apply to the development.

Find out more about biodiversity net gain, and access digital tools from our partners that can help determine if you are exempt, or produce the biodiversity metric information required.

Do you believe that, if the development is granted permission, the general Biodiversity Gain Condition (as set out in Paragraph 13 of Schedule 7A of the Town and Country Planning Act 1990 (as amended)) would apply?

⊘ Yes

Based on your site details, you are likely eligible to use our partner's online tool to create the metric sheet and all information and supporting documents and plans you need to comply with biodiversity net gain, including the metric sheet. Estimated time to complete is 45 minutes.
