Comments: The use of this site as a Tesco will not be a benifit to the area, if this site is not viable as a public House then an opportunity for the development of much needed affordable housing has been missed. The development of yet another Tesco in the Adur/Worthing area will endanger the viability local shops in the vicinity. The area will suffer from increased traffic movements and Pollution. This specific application for Lighting will increase light pollution towards Buckingham Park which will effect the enviroment particularly the birds and Bat populations. The Greenjacket was built by the Kemp Town brewery around 1934 with a brick aspect typical of it's time and it would be an eyesore if the corporate signs of Tesco which can be seen all over the country were to ruin this building.
