Comments Details

Commenter Type:	Member of the Public
Stance:	Customer objects to the Planning Application
Reasons for comment:	- Highway Access and Parking
Comments:	I do not object to the development itself, however I presume any construction will close one of the three available disabled parking bays outside of the property and I do object to that. These bays are in full use every day by people like myself who need them to park near their work between the hours of 8am to

6pm. No bays should be closed to accommodate for construction. Or alternative bays should be provided. The three bays aren't enough for the amount of disabled residents and members of the public as it is, without people regularly parking on the double yellow lines next to the spaces. I and others require these pays that have no time restrictions on them so we can utilise them during working hours.

Kind regards
