Adur & Worthing Councils
Development Management,
Place Directorate
Worthing Town Hall,
Chapel Road,
Worthing
West Sussex
BN11 1HA

Dear Sirs,

Ref:- AWDM/0810/26

Please register my objection to the above planning application.

The above planning application is not in keeping with the previous comments made by Adur Council. The proposed new buildings would set a precedent for further residential development on one of the last remaining green gaps between Lancing and Shoreham. Previously Adur Councillors have sought to protect this green space within the Adur Local Plan.

If this development went ahead it would also encourage further development in future years, and would be against previous Council decisions.

The construction of this development would also overlook existing properties, create unnecessary disruption, noise, disturbance, and increase traffic in New Salts Farm Road. A road which already takes a vast amount of traffic every day.

Established wildlife, including owls and bats etc. would also be lost.

This development would also have a negative visual impact on the rural views and character of the area.

Yours faithfully,

Eileen Elliott
