Dear Madam,

Re: Your ref: AWDM/1449/17

I am writing to comment on the above application due to my concern with the large dormer window.

My house is the attached semi. I have large roof lights in the roof above my bedroom, from which I currently enjoy an uninterrupted view of the sky. The proposed dormer will result in a view of the wall of the new extension, and a loss of western light.

Further, this dormer will overlook my garden. I will lose my privacy, and the quiet joy of being able to sit with a cup of coffee in the morning unobserved. I spend a lot of time in my garden as I am semi-retired. It is my haven and pleasure. The rear development, as proposed would, in my view, be ugly, oppressive and intrusive.

I would have no objection if the dormer were to be moved further back from the edge of the roof, or more to the west, so that it would not seem as if it were looming over me, and that my peace and privacy were lost.

I am sure that a site visit would convince you of the detrimental effect of the above proposal.

Yours faithfully,

[redacted]

Meridith Namsoo (Mrs)
