7. Identification Of Tree(s) And Description Of Works

Please identify the tree(s) and provide a full and clear specification of the works you want to carry out. Continue on a separate sheet if necessary. You might find it useful to contact an arborist (tree surgeon) for help with defining appropriate work. Where trees are protected by a TPO, please number them as shown in the First Schedule to the TPO where this is available. Use the same numbers on your sketch plan (see guidance notes).

Please provide the following information below : tree species (and the number used on the sketch plan) and description of works. Where trees are protected by a TPO you must also provide reasons for the work and, where trees are being felled, please give your proposals for planting replacement trees (including quantity, species, position and size) or reasons for not wanting to replant.

E.g. Oak (T3) - fell because of excessive shading and low amenity value. Replant with 1 standard ash in the same place.

See plan ref. 'PL1'.

T1, T2 + T3 = 3 no. semi to early mature sycamores

T4 = 1 no. young elm

T5 = Leaning ivy clad overgrowth from tennis club side.

7. Identification Of Tree(s) And Description Of Works continued ...

Works = T1 - T4 :- selective thinning at base to 2m, remove deadwood, cut back to clear lamp columns, crown lift to a height of 3m over the footway and 6m over the carriageway. T5 = cut back, lift, reduce to clear from highway as a minimum 6m over the carriageway - these works are all to be carried as an exception by the highway Authority as a statutory undertaker for the safe use of the highway.

*T1 - T4 - remove all of the growth on the south side of the trees to clear all the boundary overhang (Ref 13 is the purpose of Ref 13 notice).

8. Trees - Additional Information

Additional information may be attached to electronic communications or provided separately in paper format.

For all trees
A sketch plan clearly showing the position of trees listed in Question 7 must be provided when applying for works to trees covered by a TPO. A sketch plan is also advised when notifying the LPA of works to trees in a conservation area (see guidance notes). It would also be helpful if you provided details of any advice given on site by an LPA officer.
