Comments Details

Commenter Type:	Neighbour
Stance:	Customer objects to the Planning Application
Reasons for comment:	- Design - Privacy Light and Noise
Comments:	Proposed double storey extension will block out the sunlight into our garden which is our main patio eating area. This area gets most sun in our garden which does not get sun further down due to the height of the trees in 7/7A`s garden. Windows 4 & 5 are currently opaque glass. In the plans one of these windows is enlarged & both proposed to be clear glass. One window is opposite our bathroom which has clear glass because currently there is opaque glass opposite. The other window would allow people to look down into our garden particularly into our eating area & thereby eradicate our privacy. We request that these windows continue to have opaque glass. With regard to the aesthetics of the immediate part of the road we feel that No 7 front windows should be replacement leaded light to match the other connected semi No 5.
