Comments Details

Commenter Type: Councillor

Stance: Customer made comments in support of the Planning Application

Reasons for comment: - Privacy Light and Noise

Comments: This property is in Widewater Ward where I am the District Councillor.

This application puts in place the exact condition I asked to impose for planning application AWDM/2129/20 when I attended the February 2021 planning meeting.

I was disappointed that the representative of the applicant resisted the good sense of this condition.

I am pleased that the applicant has changed their mind and now agrees with me! It is a shame that they have had to pay for another planning application to achieve something which could have been decided in early February!

I believe this option provides far better privacy for the neighbour's garden.

Additionally, I believe this change will allow the applicant to have more freedom of movement on their terrace and the benefit of improved light in an area which is shaded by the balcony.

Kind regards
