Comments Details

Commenter Type:	Neighbour
Stance:	Customer objects to the Planning Application
Reasons for comment:	- Highway Access and Parking - Privacy Light and Noise
Comments:	I do not object to the project entirely, just the proposed positioning of the kitchen. The new kitchen will be directly the other side of our lounge wall. We can already hear the washing machine and even food preparation where the existing kitchen is. Our party walls are not very sound efficient! Having washing machines, cupboards, ovens etc directly next to our living space will impact our daily lives with noise, vibration, heat and smells. How will this impact water and waste disposal so close to the party wall. This particularly concerns me as I am on the autistic spectrum and noises have a negative impact on me. We were never consulted when the last set of works were carried out and the noise was horrendous. Also, with regards to noise, their fire-doors are very loud when left to

close on their own.

The parking is also a worry, as we are next to a school and it gets incredibly busy. I believe that the property's drop pavement was given permission on them having a garage facing the driveway - there is no garage at all.

I also hope that the maintenance of the property will improve, in particular the front garden. It hasn't been tended to since they moved in and we are fighting a losing battle to keep our side tidy.
