44mm Extruded Aluminium Spring Tensioned Security Window Shutters

Introduction

The 44mm roller shutter system is capable of achieving a maximum overall width of 3m (including guides) and a maximum overall height of 3.250m (including box). All shutters are supplied with 65mm guides and 150, 165, 205 or 250mm box as standard depending on height. Standard stock colour shutters (white, brown & ivory) are supplied with colour coordinated guides, end plates and box as standard.

Alternative colour shutters are available at an additional cost.
