I would like to lodge the following objections to the above application to demolish the existing toilet block on Beach Green ,Shoreham Beach and
build a much larger building to house new toilets ,showers , cafe and roof terrace.

1.Although the elements included in the rebuild would be welcome , the size of the proposed development is much too large and out of keeping
in the setting of houses and bungalows and the Nature Reserve on the sea side.
2.Considering that a cafe was what was asked for, the proposed opening times are inappropriate.
Another pub or Event centre is not required on Beach Green which is a family open space.

I trust the committee will give due consideration to these objections,
Yours sincerely,
Joy Daintree
