Hello Eve,

Thanks for your visit yesterday. It was very helpful to me to chat things through with you.

I would like to object to the proposed 5.7m extension of no.51s Greet Road. I would like them build no more than 4.7m from the original back wall of their house. I also think the height is excessive and would like them to build no more than 3.2 to the top of the proposed pitched roof. That would mean that the eves of the pitch (wall plate level) would be approximately 2.5m high.

I do feel that giving permission to build anymore than i have stated above will significantly reduce the amount of light to the back of my house. I also think that the proposed plans would be out of keeping with the neighbouring houses and would be out of proportion to the size of the house.

Please let me know the outcome of your decision.

Kind regards,

Tom Mankiewitz
