Reasons for
comment:

Comments: I'm firmly in support of the application to extend the proposed footprint of the clubhouse to include a cafe. The idea behind the cafe is to generate income for the club to enable them to be self-sufficient as they take on the running of Hill Barn. Also being a not for profit group, any income generated will go back into the running of the club to improve the offering they can give to the wider community and to improve the general park area.

Kind regards
