Design and Access statement

Brio Restaurant Brunswick Road Shoreham By Sea BN43 5WB

The existing bay windows are past their useful life and now need to be replaced.

We intend to replace the existing windows with similar fenestration in Powder coated aluminium

We have investigated a number of suppliers and have decided that the Heritage range of windows by Smart Systems look the most like the original windows in terms of component sizes , fenestration , and overall appearance . The windows will be white powder coated finish .
