We wish to express the following concerns re this proposed application.

1. As the adjoining semidetached property, we feel the flat roof extension coming out a further 1700m would look quite out of character with the existing frontage and spoil the “kerb appeal” of our home.
2. We are concerned it would also impact on the amount of light through the bay window in our north facing room, which is particularly relevant as I am a professional artist and the room is my art studio.

Mr D. Lascelles
