**WORTHING SOCIETY CONSULTATION RESPONSE**

**AWDM/0156/25 : FORESHORE EAST OF BEACH INSPECTOR'S OFFICE, THE PROMENADE, WORTHING, WEST SUSSEX**

**Erection of a 44m high observation wheel with viewing gondolas and associated structural base, payment booth and welfare facilities to operate from March to November (and at the same time each year until 2028)**

Thank you for requesting our comments in respect of the aforementioned application. The structure is to be located on the Promenade opposite Montague Place. This is situated within the South Street Conservation Area where there are proximate listed buildings.

I have now had the opportunity to discuss the application with our Heritage Team. We offer no objection providing that consent is only given for the structure to be sited on a temporary basis.

I hope this is helpful.

Yours sincerely
