My Phone: [redacted]

Dear Mr J. Appleton,

With reference to the above application for a 'Pitched roof extension with room in the roof' is virtually a two story extension, and doubles the size of the extended property, which in my view will not be in keeping with the adjacent properties in this residential area.

However, my main concerns are:

Due to this extension being built on a higher elevation than our property, it will be extremely DOMINEERING and overlooking as can be seen in the enclosed Photo with a simulated projection of the proposed extension, as viewed from my rear door.

I invite you to visit my property to validate my concerns.

I object to these plans on the above grounds.

Yours Sincerely,

EXTENSION
