Dear Sir/ Madam,

I have received a letter from yourselves advising me of this planning application. I live at 149 Old Fort Road and therefore the property at 32 Falcon Close is behind, and slightly to the east of my house.

I have no objection to the development as it stands, but I am concerned that at some point either the existing, or future, owners may decide to make the south-facing flat roof into a balcony for sitting/sunbathing etc.

I would object most strongly to that. I would therefore appreciate it if the Planning Department could make it a condition of approving this application that no balcony should be constructed (nor the new rear windows changed for a French Window style.)

Regards

Colin Richardson
