Dear Sir/Madam

Your Ref AWDM/10001/11 – 16 Oldfield Crescent, Southwick, Brighton

With reference to your letter dated 29th November 2011 we have had an opportunity to see the plans for the extension to the rear of the adjoining property and would make the following comments.

The proposed side wall to the west of the property in question is quite close to our own residence. We feel that extending to a depth of 4 metres would restrict light to the back of our house, which is especially important as it is north facing. We would lose the light we currently enjoy during the first part of the day which would put the rear ground floor rooms and our patio in constant shade.

We already have restricted light to the other side of our property due to the neighbours' house and garage and if permission for the proposed extension is granted to 4 metres, this would enclose our property on both sides.

We are also concerned regarding the height of the 2 rooflights which will also bar light from our property.

Therefore we object to the current plans for the reasons above as they adversely affect the enjoyment of our property in their current format.

Yours faithfully

Anthony Stuart and Angela Stuart
