SITE WASTE MANAGEMENT PLAN
Extension to Domestic Dwelling House
139 Upper Shoreham Road, Shoreham, West Sussex.

Site Construction Waste Management Plan
All non-recyclable material to be disposed of at a registered landfill site. It is not considered that any contaminated material is present upon or within the site with the exception of asbestos products that will be removed and disposed of by a registered asbestos waste contractor.
All recyclable materials and components shall be disposed of at a registered recycling plant.
General building waste products to be either disposed of at a registered landfill site with recyclable materials disposed of at a registered recycling plant.
The building contractor shall prepare a Waste Management Plan for the approval of the relevant authority as may be directed by that authority.
