Hi Jo,

I have looked at the various reports and agree with the proposed mitigation measures contained within the Odour and Noise Assessments by Acoustic Solutions.

These measures rely heavily on regular maintenance to provide the desired effect. I note that the Proposed and Existing Elevations plan: Drawing No. KD/REFURB/PP/63/25/H-255, Rev 3 contains comments on what maintenance will be undertaken. These should be implemented as per this drawing.

There are no EH objections to this application, subject to the above being implemented.

Kind regards
