Development Management - Delegated Officer Report

Application Number: AWDM/1734/23 Recommendation – APPROVE

Site: 198 Old Shoreham Road, Shoreham-by-Sea, BN43 5TE

Proposal: Application for a Lawful Development Certificate for proposed loft conversion incorporating rear dormer and front rooflights.

Date of site visit: N/A Assessment has also been assisted using the Applicants plan; Earthlight mapping; and Google 3D of the site

Neighbours checked: Y

Additional neighbour notifications: N

Site and Surroundings:

The application site is positioned on the east side of Old Shoreham Road, and is situated close to the 'Amsterdam' public house, and the road junction with Upper Shoreham Road. The property is a two storey semi-detached dwelling, with a side access gate to the rear garden. The rear garden area has many outbuildings lined up behind each other, from close to the dwelling up to the rear boundary, all limiting usable amenity area. The property also has a limited front amenity space, as it has been predominantly paved for the parking of vehicles. The dwelling has a small rear extension.

Many properties within the locality have extended in some form, including roof dormers. Both of the immediate neighbours, no.'s 200 to the north and 196 to the south, have rear dormers and no 200 has an inverted front dormer, and no. 196 has a series of front rooflights. No. 196 has a larger home rear extension, and no. 200 has a rear extension.

The site is not a Listed Building or within a Conservation Area. (Although part of the rear boundary abuts the boundary of the Old Shoreham Conservation Area.)

Relevant Planning History: None

Proposal:

A Certificate of Lawfulness is sought for a:-

- A flat roof rear dormer; and
- 2no. rooflights to the front roofslope.

Planning Assessment

Principle

Class B – additions etc. to the roof of a dwellinghouse

Permitted Development

B The enlargement of a dwellinghouse consisting of an addition or alteration to its roof

Development not permitted

B.1 Development is not permitted by Class B if:-

a) The dwellinghouse has been granted only by virtue of Class G, M, MA, N, P, PA or Q.

Analysis: The dwellinghouse has not been created through change of use by virtue of Part 3.

b) The height of the roof extension would exceed the highest part of the existing roof;

Analysis: The flat roof of the rear dormer is below the highest part (ridge) of the existing roof.

(c) the roof extension would extend beyond the plane of any existing roof slope which forms the principal elevation of the dwellinghouse and fronts a highway;

Analysis: The rear dormer will not be onto the principal elevation etc.

(d) the cubic content of the resulting roofspace would exceed the cubic content of the original roof by more than:-
i) 40 cubic metres in the case of a terrace house, or
ii) 50 cubic metres in any other case.

Analysis: There is a submitted 'Evidence' document which states that the total cubic content of the rear dormer is 28.1 m^3

(e) it would consist of or include:-
i) the construction or provision of a verandah, balcony or raised platform, or
ii) the installation, alteration or replacement of a chimney, flue or soil and vent pipe;

Analysis: None of the above is shown on the submitted plan.

(f) the dwellinghouse is on article 2(3) land

Analysis: The dwelling house is not on article 2(3) land.

(g) the dwellinghouse is built under Part 20 of this Schedule (construction of new dwellinghouses); or

Analysis: The dwellinghouse has not been created by virtue of Part 20.

(h) the existing dwellinghouse has been enlarged in reliance on the permission granted by Class AA (enlargement of a dwellinghouse by construction of additional storeys).

Analysis: The above does not apply.

B.2 Development is permitted subject to the following conditions:-

(a) the materials used in any exterior work must be of similar appearance to those used in the construction of the exterior of the existing house;

Analysis: A submitted evidence document states that the materials used will be of a similar appearance to those of the existing dwellinghouse.

(b) the enlargement must be constructed so that:-

i) other than in the case of a hip-to-gable enlargement which joins the original roof to the roof of a rear or side extension –

(aa) the eaves of the original roof are maintained or reinstated; and

(bb) the edge of the enlargement closest to the eaves of the original roof is, so far as practicable, not less than 0.2m from the eaves, measured along the roof slope from the outside edge of the eaves, and

ii) other than in the case of an enlargement which joins the original roof to the roof of a rear or side extension no part of the enlargement extends beyond the outside face of any external wall of the original dwelling house.

Analysis: The proposal complies with the above. The submitted 'evidence' document states that there will be a minimum of 0.2m set back from the eaves.

c) any window inserted on a wall or roof slope forming a side elevation of the dwelling house must be:-

i) obscure glazed and
ii) non-opening unless the parts of the window which can be opened are more than 1.7m above the floor of the room in which the window is installed.

Analysis: The plans show a new window in the side elevation (south) and is notated as being non-opening and obscured glass.

Class C – other alterations to the roof of a dwellinghouse

Permitted development

C. Any other alteration to the roof of a dwellinghouse.

Development not permitted

C.1 Development is not permitted by Class C if—

(a) permission to use the dwellinghouse as a dwellinghouse has been granted only by virtue of Class G, M, MA, N, P, PA or Q of Part 3 of this Schedule (changes of use);

Analysis: The dwellinghouse has not been created through change of use by virtue of Part 3.

(b) The alteration would protrude more than 0.15 metres beyond the plane of the slope of the original roof when measured from the perpendicular with the external surface of the original roof;

Analysis: The submitted evidence document states that the rooflights would not project further that 0.15m beyond the plane of the slope of the existing roof.

(c) It would result in the highest part of the alteration being higher than the highest part of the original roof;

Analysis: The rooflights etc., will not be higher than the highest part of the original roof, namely the ridge.

(d) It would consist of or include—

(i) the installation, alteration or replacement of a chimney, flue or soil and vent pipe, or

(ii) the installation, alteration or replacement of solar photovoltaics or solar thermal equipment.

Analysis: None of the above are shown on the submitted plans

(e) the dwellinghouse is built under Part 20 of this Schedule (construction of new dwellinghouses).

Analysis: The above does not apply

Conditions

C.2 Development is permitted by Class C subject to the condition that any window located on a roof slope forming a side elevation of the dwellinghouse must be— (a) obscure-glazed; and (b) non-opening unless the parts of the window which can be opened are more than 1.7 metres above the floor of the room in which the window is installed.

Analysis: The plans are notated to show that the new window in the side elevation will be obscured glass and be non-opening.

Recommendation

Issue a Certificate of Lawfulness as the proposal is permitted development by Class B and Class C within Schedule 2 Part 1 of Town and Country Planning (General Permitted Development) (England) Order 2015 as amended.

Reasons for Recommendation

The proposal constitutes ‘development’ as defined by Section 55 of the Town and Country Planning Act 1990, and is permitted by Class B and Class C of Schedule 2, Part 1 of the Town and Country Planning (General Permitted Development) (England) Order 2015, as amended.
