Comments Details

Commenter Type:	Neighbour
Stance:	Customer objects to the Planning Application
Reasons for comment:	- Privacy Light and Noise
Comments:	My flat overlooks this aggregate facility. During and following the pandemic our work now is done from home. We cannot work satisfactorily with windows or door open. The noise is INTOLERABLE. I cannot hold telephone conversations without shutting doors and windows. I really do not understand why this is allowed to continue. I write comments every single year yet this practice continues. Every year the company says they are moving but of course they are not. God help the people who will be trying to sell the flats next door. I urge you to get this facility to move and allow us some peace. The building of the flats has been a delight compared to the impact on my life by this noise.

Kind regards
