Comments Details

Commenter Type: Neighbour

Stance: Customer objects to the Planning Application

Reasons for comment:
- Design
- Loss of General Amenity
- Privacy Light and Noise

Comments: The street lighting columns which have been installed (not proposed) are completely out of keeping with the adjacent Conservation Area in terms of design and scale. They also detract from the appearance of the school site. The lighting requirements of the site could be adequately provided by the low level bollards which are proposed for the rest of the site.

The neighbouring area is adversely affected both by the appearance of the columns, but also by the unnecessary strength of the light. This impacts on enjoyment of the properties, both inside and in the garden. The light pollution also has a negative effect on the environment such as wildlife and the night sky.
