Changing use of Annexe for occasional use for family and friends to a separate dwelling.
We are writing to ask why the Annexe is being changed into a Seperate Dwelling.

We didn't oppose Mr Phillip's with his first proposal of the Annexe for occasional use only,but ever since it was completed we have been aware that footballers for Brighton and Hove Albion Football Academy have Drayton the Annexe. One player from Belgium and patterned lived there for over a year which was not the proposal in the first application.obviously Mr Phillips has received rent.

The Annexe is right at the bottom of Mr Phillips garden and from our upstairs bedroom we look directly down on the Annexe,we see straight into the kitchen and front room.We used to enjoy looking out of the window at wild life and the South Downs(Now we don't do this as much because of the Annexe being occupied.)We have had Venetian blinds fitted to obscure us looking into the Annexe and the occupants looking at us and feeling uncomfortable.

We are also aware that Tony Rogers a Buildings Consultant is envolved in this application which makes us wonder what plans Mr Phillips has for the Annexe to change to a separate dwelling going against the original plans which we did not oppose.

We object to this application to change to a separate dwelling as it goes against the original plans and the fear of what Mr Phillips long term plans for the property (As obviously he has had other people than family and friends staying in the property and gaining money not even considering any of the neighbours opinions. We don't want people living full time in the Annexe in such close proximity to our house and feel Mr Phillips is taking advantage of the property and now changing its original purpose assuming for monetary gain,it will totally impact our life's and value of our property if he intends to sell the annexe.
Kind regards

Mrs Lesley Hammond
