We are here to help.
If you have any questions or concerns
please do not hesitate to call us.

Project:

We are providing 159 homes and 3 commercial units on this site.
The project end date is June '26 and we are pleased to say that we are on programme.

Progress So Far:

The project as a whole is progressing well, with block A's concrete frame well underway and brickwork commenced on the ground floor internals and externals. On block B around 40% of the ground works are complete.
Over the next few months we aim to have block A's concrete frame complete and having commenced block B's. As well as steady progress on block A scaffolding and the internals.

As a site we are now registered with the considerate constructors scheme, banners and posters containing the details of our registration can be found around the site hoarding.
As always, we try to minimise the disruption to our neighbours and thank you for your understanding
and cooperation. However if you have any concerns please contact us.
