Address:	12 Seamill Park Avenue Worthing West Sussex

Comments Details

Commenter Type:	Neighbour

Stance:	Customer objects to the Planning Application
Reasons for comment:	- Design - Privacy Light and Noise
Comments:	I have contacted Hemiko by email and by phone with some queries but have not had a response. 1. The applications does not state the start and finish date. How long is it for? 2. There is no information about lighting. The previous compound had stadium lighting initially which was totally inappropriate. Thankfully the sea defence contractors did change this when we complained. Please can low level lighting be specified and angled so as not to disturb neighbours. 3. The working hours are daily and long and looking at the vehicle movements could cause noise nuisance to neighbours. Can they be reduced? 4. A diesel generator is to be used and is located at the nearest point to neighbouring houses. Is it possible to locate it on the other side of the site? What hours will it be used? Will effective screening be erected to minimise noise and fumes? It should not be used at night. 5. The Proposed Compound Details plan seems to have an incorrect boundary along the west side 'Commercial ownership boundary' which overlaps private property. Could you correct this please?
