Dear Ms Jo Morin

Re: Planning application for change of use at 37 Parklands Avenue Worthing

I write via email as unfortunately I could not access the website planning portal.

I wish to object to the proposed above planning application for additional classrooms and Multi-use Games Area (MUGA) in the grounds of the grade II listed building known as Courtlands.

These additional classrooms huts are out of keeping with the character of this historical building and grounds. I feel that Courtlands is subject to creeping overdevelopment on this small site, leading to loss of character and increased noise.

The student numbers have increased significantly since the original application, creating additional noise and disturbance in our previously quiet neighbourhood.

The inclusion in the application of the MUGA will only add to the noise and disturbance for this neighbourhood. The MUGA was removed from the original application as it was stated that very suitable recreational facilities were available at the leisure centre just round the corner in Shaftesbury Avenue.

I therefore strongly object to the proposed application for additional classrooms and Multi-Use Games Area.

Please can you acknowledge my email to confirm receipt.

Kind regards

Tina Barker
