27th April 2012

Dear Mr Porter

Ref: Planning application AWDM/157/12/INVAL
One double garage at 35 East Meadway, Shoreham-by-Sea BN43 5RF

We write with reference to the planning application submitted for a double garage at the above premises. We received the usual letter from your department and had no objections or problems with this application and as we are directly opposite the plot where the application is for we felt it was a rather splendid idea.

The current cover for the 2 parked vehicles, which has been there since 2005 when we moved in, is rather an ugly car port and in reality a garage would look far better and would certainly not be such an eye sore as the current car port. In fact most homes have a double garage to the side and that is really what this application is for.

We have a double garage that extends further out than the house and so the plans that came to you are in reality no different than what we have other than at a different angle.

Under the circumstances we feel it is unreasonable to refuse the application as there is really nobody affected and nobody in the direct vicinity has objected. A garage is a far better outlook than parked cars everywhere in the drive.

Yours faithfully,

[redacted]

J Fennell
