Evening

Just to provide further evidence to the lack of demand from any clubs to use St Andrews school artificial pitch, the floodlights have not been turned on this evening, Friday 20th November.

So no bookings between 4pm and 8pm but the school thinks they have sufficient demand to request opening it until 9.30pm.

Last night Thursday 19th November used for one hour by men's football between 6-7pm but no other usage. Obviously the lights stayed on until 8pm though.

Regards

Dave Osland
