Dear Mr Westerman

From 12th September 2025, I have left messages via Planning reception also two voicemails regarding the above planning application.

1. I have not received notice part 2 informing me as joint freeholder.

2. Can you confirm that the garage conversation is not larger than the existing structure. My concern is that it could overhang by back windows, resulting in loss of light and reduced access to carry out any repairs to my walls and gutters. Also that access to the gym is as existing and especially that there will be conditions to control that it's not a business use.

With kind regards
