Waste Minimisation Statement

Ref no. 09/0701/5

- There will be little or no demolition waste arising from the scheme.
- Any waste materials will be bagged up, sealed and disposed of locally, there will be no liquid waste products.
- A licensed waste contractor will be appointed locally within East or West Sussex.
- All materials for the project will be measured accurately to avoid waste.
- Materials, where possible, will be obtained from local manufacturers and merchants to reduce transport costs.
- Other materials will be sourced locally where possible. All packaging will be recycled.

The aim will be to use construction materials from sustainable sources with low embodied energy and low carbon input to accord with BREEMA standards.
