Dear Mr Peck,

We are in receipt of your letter dated 8th April 2026, received on 16th April 2026, regarding the proposed building changes to the house next door to us, 15, Arlington Avenue.

We have reviewed the plans and have an objection to the snug windows on the north side of the property. These windows are at present obscured glass as they look on to our property, especially the window on the right hand side (as indicated in the attached copy of the plans), as this window looks directly into our lounge. It would appear from the plans that the intention is to have both windows clear glass. Whilst this would not cause too much of a problem with the left hand window it would be extremely intrusive for us with the right hand window.

We will also lose light in our lounge with the erection of the single storey extension as this is on the south side of our property, there is a window and door directly facing our lounge, although there is a small fence between the properties. Whilst this is not our major objection the snug windows are.

We look forward to receiving your comments.

Yours faithfully,

A large black rectangular box redacting the signature of Roy and Wendy Shergold.
