Reasons for comment:	
Comments:	I support the installation of a condensing unit for an indoor heat pump. As a local business owner, I know it is important for our customers/clients to feel comfortable in certain environments. For the industry that Your Choice Medical is in, it is vital that their clients are in a safe and comforting place. I have visited Your Choice Medical for personal reasons and know how important is to feel comfortable during a procedure. As a local business owner with heat/air conditioning installed, I know this will not create noise pollution. I have five units installed on the flat roof of my property and you cannot hear them operating internally or externally.

Kind regards
