Reasons for
comment: - Other
- Privacy Light and Noise

Comments: I am totally against the rear extension proposed at 69 Sunningdale Road, Worthing.

My wife suffers from Chronic Obstructive Pulmonary Disease (COPD) and is confined to living in the bedroom adjacent to next door's Dining area. She can only walk a few feet before she is breathless. She sleeps on and off during the day and is known to suffer anxiety and panic attacks when becoming severely breathless. The air conditioning that I have installed in the adjacent conservatory helps her breathe when she is particularly stressed.

I can't imagine how her health will deteriorate with the noise generated by several

months of construction.

One point to mention about the actual plan is that I don't believe that it conforms to the 45-degree "Right to Light" rule. A 3 metre high extension would need to be 310 mm away from my fence not 200 mm. The window in my bedroom is east facing and so the natural light that it receives would be impacted by the extension being too close. The 110 mm increase in separation would also allow any maintenance of the wall of the extension and reduce the likelihood that my fence would be damaged at anytime.
