I have been unable to submit my comments online against the above planning application so have detailed them below:

This application goes against the Local Plan for the Green Gap and is an overdevelopment.

It is totally inappropriate for the area.

It would cause unacceptable traffic congestion in the summer.

It would create an eyesore and would spoil the landscape of this unique part of Worthing

It can only result in a loss of biodiversity in the Gap

Allowing overnight accommodation there is likely to encourage other campers to set up nearby overnight or longer term
