Mr Adam King
Green Timber Tree Surgery
66 Sandown Road, Brighton, East Sussex

Sketch plan

20 January 2020

Mr Malcolm Gough
28 Church Lane
Southwick

T1 (Ash)
Remove unsightly low limbs previously 'lopped' in half
Prune back upper lateral overhanging limbs

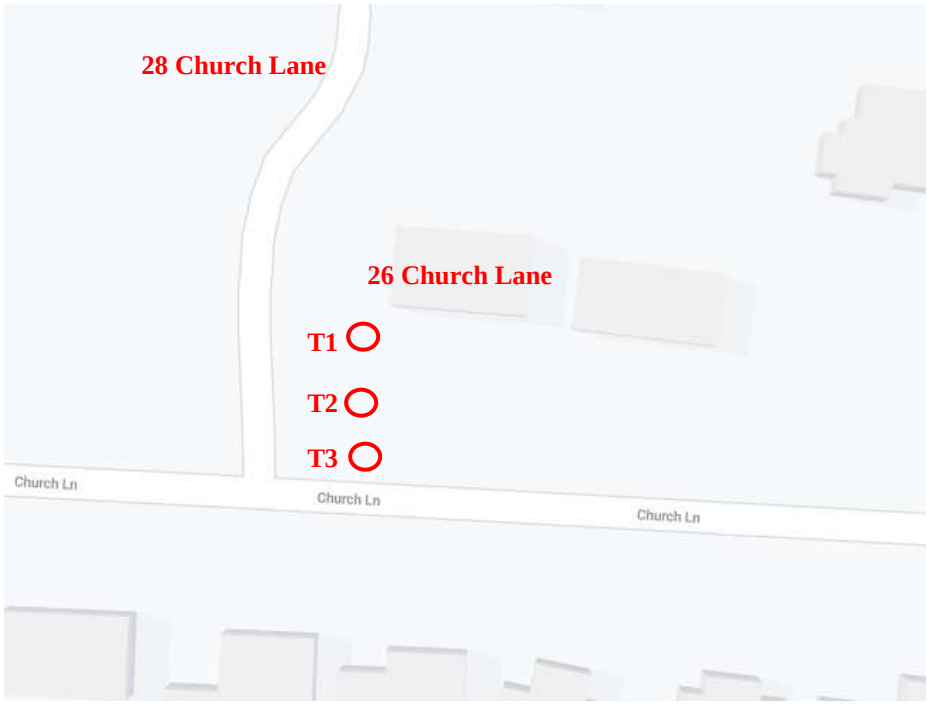

To allow for more light to new plants and trees
To improve aesthetic

T2 (Holm Oak)
Prune back lateral overhanging branches to near boundary line (as previously evidenced) or to appropriate growth points

To mitigate oppressive levels of shade to lower canopy planted garden

T3 (Ash)
Remove 3 low large lateral limbs
Crown reduce remainder by approx. 1m to balance and shape

To mitigate low light levels and remove street light obstruction
Reason: To mitigate low light levels and to maintain clearance from adjacent properties and street lights
