RE:- RE-SUBMISSION ~~AWDM/0521/12~~
AWDM/0588/12

Dear Sir,

Re this further submission for a conservatory to the rear of 29 The Grovelands Lancing. W-Sussex BN15 8HY.

This does not affect this structure in any way, in fact with French doors opening into the garden with probably a patio in front of that, would as stated in my last reply would bring it even closer (a matter of feet) from the end of my garden.

This would make it very environmentally unfriendly with normal activity into this extended living accommodation so close to my Wife & I are well into our eighty years of age and it would be extremely detrimental to any feeling of wellbeing, especially my Wife who suffers several health problems, some of which I have advised separately for your perusal.

Being this incapacitated, obviously she is restricted to distance and rarely goes out in the public realm because she needs a walking aid and needs to avoid

IP

We have always been enthusiasts of the outdoors and still are, so you can appreciate our garden provides my wife's recreation, enjoyment & privacy.

I feel it would be against our rights to be deprived of these functions and privacy. So I still object to this conservatory being agreed.

Unless absolutely necessary I would prefer to keep my wife's medical history from the public domain.

Yours faithfully
