Commenter Type: Member of the Public

Stance: Customer made comments in support of the Planning Application

Reasons for comment: - Design

Comments: As a neighbour in this location I fully support this application for a single storey extension to this property. I am supportive of this development as the proposed design is in keeping with other similar extensions in the street and will not have a visual impact as it is only single storey. Moreover, it is my personal opinion that the proposed development will add value to the location and make the property more appealing to a family in the event of sale. Given the particular safe and quiet nature of Brierley Gardens due it being a cul de sac, it is a perfect location for families and this development will help to keep the friendly appeal of Brierley Gardens.
