Comments

The proposed conservatory opens up facing directly the Gardens of Nrs 18, 20 and 22 Buckingham Road, notably our main bedroom we have had some problems in the past where previous owners had parties or had the doors open late into the evening. Any noise is clearly audible in our bedroom late into the evening, despite the hedging and our secondary glazing.
I suggest the main doors of the proposed conservatory be made to open to the South rather than the East. Any ambient noise (or otherwise) would therefore be channelled away from the Gardens of nrs 18, 20 and 22 opposite when the doors are open.
I also suggest the roof be of a ~~suitable~~ suitably sound proof standard to prevent excess noise escaping when the doors are not open
