Subject: Objection to AWD/0737/26

To: <planning@adur-worthing.gov.uk>

Dear Sirs

We strongly object to the proposed planning application.

The plot of land is part of the green gap between Goring and Ferring and should be preserved as agricultural land or open country side.

Already over the past four months there have been a growing number of vehicles on the land including horse boxes, vans, a toilet block, an advertising trailer, and generators. For a number of weeks now alcohol and food and parking has been on offer to the general public. Have licences already been obtained to enable this? The land looks a cluttered mess with the vehicles and beer barrels scattered over the site. The proposal appears to retrospectively seek approval for some of what has already been done and is carrying on at the site. There are already ample facilities available to the general public at the Sea Lane Cafe, the Bluebird and the coffee van at the Ferring end of the Greensward (that is only present during the day).

The proposed provision of an overnight campsite is a major concern. Noise carries on the seafront. Littering is a concern. The council already bans over night parking of camper vans along the seafront. Over night camping should not be permitted on this land. It is already a concern that camping is taking place in the woods by the toilet block. (In addition to the big tent that has been there for over six months, there were five other smaller tents there this morning. Litter is getting worse in these woods since the council appears to have turned a blind eye to this problem). We already have a problem on the Greensward with gypsies turning up on a regular basis, cutting down posts to get on the Greensward. The Greensward is a valuable open space for the community and it is great to see people enjoying it in the summer months. The gypsies are a major turn off to people visiting this community space and they invariably leave a mass of litter for the council to clear up at tax payer expense. Any proposed camp site might encourage gypsies.

We are concerned about the proposed bore hole. Why should there be a need to extract water? Won't this impact the adjacent farm land. Water is already scarce.

Yours faithfully

A L and J E Cundiff
