Hi,

I am writing to place my objection to the application for a dog day care centre between Caxton House and Gordon Road. It is totally inappropriate to site kennels in the heart of a residential area and immediately adjacent to a busy railway line (potentially causing distress and therefore noise also to the animals).

I would question noise and smells for those who live immediately adjacent to the proposed facility.

I myself live in Gordon Road and would prefer to see this kind of facility placed in a more suitable location.

Many thanks for your consideration.
