Dear planning department

8 Cromleigh Way, Southwick, BN42 4WG
Certificate of lawful development

This is an application for a certificate of lawful development for the replacement of the existing conservatory with a brick faced rear extension, occupying the same footprint of the conservatory.

Also I request your advice on whether the fixing of external insulation to the walls, to reduce heat losses, is something that will require a formal planning application.

The external appearance of the property will not be altered by the fixing of the insulation A rendered first floor and brick finish to the ground floor is proposed. The proposed thickness of the insulation is 100mm.

The works are being discussed with the next door house, who may also wish to carry out this type of work.

Yours sincerely

Richard Clayson
