J.Davey

I am writing to give my objection to the planed 5G mast Durrington/ Tesco.

Objection to AWDM/1596/25

The appearance and sighting will be detrimental to all the people living in and around the area not to mention the health risks for everyone living near by and those who use the community Center, Schools, Businesses and Housing.

I have friends who are in the area so I'm very worried about the health risks that Theses 5G masts create.

I feel they are against Gods teachings , the mark of the beast.

God bless
J Davey
