Tuesday 3rd December 2024

Dear Sirs,

Further to a recent visit to West Tarring Rectory where I was met by the property owner, please find enclosed application form to undertake tree surgery works to trees within a conservation area.

Address:

West Tarring Rectory, The Rectory, Glebe Road, West Tarring, Worthing, BN14 7PF

T1 is an ash tree which needs a 2.5m canopy reduction. All cuts to suitable growth points in accordance with BS3998

T2 is an ash tree which needs to be crown lifted to 5m and sever ivy at the base. Also to undertake a 2.5m canopy reduction, maintaining a minimum of clearence of 3.5m from buildings. All cuts to suitable growth points in accordance with BS3998

T3 is an ash tree which is encroaching on the garage and neighbouring buildings and needs a 2.5m canopy reduction. All cuts to suitable growth points in accordance with BS3998.

T4 is an ash tree that is encroaching on the neighbouring scout hut. Crown lift, maintaining a minimum of clearence of 3.5m from the building.

G1 is a group of trees that are overhanging the footpath. Crown lift, maintaining a minimum of clearence of 3.5m. Reduce any branches that encroach on the flint wall, with a minimum of 0.5metres

My recommendations (for which I'm seeking consent) and the associated justification are detailed beneath, and I have included annotated photographs for identification purposes.

Yours sincerely

Proposal & Justification:

T1 – Ash

The tree is located at the what 3 words ///locker.start.poetic

We propose to carry out a 2.5m canopy reduction. All cuts to suitable growth points in accordance with BS3998.

T2 – Ash

The tree is located at the what 3 words ///debit.cloak.froth

We propose to crown lift to 5m and sever ivy at the base. Also to undertake a 2.5m canopy reduction, maintaining a minimum of clearence of 3.5m from buildings. All cuts to suitable growth points in accordance with BS3998.

T3 – Ash

The tree is located at the what 3 words ///civil.pure.punks

We propose to carry out a 2.5m canopy reduction. All cuts to suitable growth points in accordance with BS3998. This is due to it encroaching on the garage and neighbouring buildings.

T4 – Ash

The tree is located at the what 3 words ///coffee.flash.backs

We propose to crown lift, maintaining a minimum of clearence of 3.5m from the building. This is due to it encroaching on the neighbouring scout hut.

G1 – Group of trees

The trees are located at the what 3 words ///broke.ending.keep

We propose to crown lift, maintaining a minimum of clearence of 3.5m. Reduce any branches that encroach on the flint wall, with a minimum of 0.5metres. This is due to them overhanging the public footpath.
