AWDM/1425/17.

I am writting to you onbehalf of my sister carol. It has been bought to our attenstion that an application to adur Council and been put in to you regarding that 2 x trees in our garden have been asked to be removed, We understand that this has been put in on behalf of 56 The Green. Southwick, We were informed about the building they were or are building next over look our garden and this to us is fine, but we are not happy that they want our trees removed. They are lovley trees and they look lovley in the Summer and give us privacy we are ment to be saving our trees and not removing them these trees are in good condition and have been there many years. im sure they could just be trimed. If the people that are building the house find that they are restricting there light maybe they should have planed there building different. but we can not see how they afect them in any way. My sister by the way was not informed about the trees we only found out about this by neighbours and paper.

PTO

We also understand they are in a Conservation area. My sister and others do NOT want these trees removed. Surely if everybody putting up buildings want to remove trees everywhere it would be sad we need our trees and we need the ones we have in our surroundings
