Thankyou for providing an update to the plans for my neighbours planning application at 7 Dolphin Road Shoreham BN436PB

Their planned application would result in a reduction of light to my garden .

The new structure would be too close to my garden fence which would have an impact on my garden fence structures .

I have not been asked about how the building would go ahead so close to my property without the need for my fence and gate to be temporarily removed .

Please note that I do not give my consent for my fences and gate to be taken down or moved at any time . .

Please could you kindly clarify the access through their garden .

There has always been a right of way through the gardens from my neighbours at number 5 through my property and onto number 7 to use the alleyway to facilitate access around from the back of the house to the front .This agreement has been in place for the 30 years I have lived here and clearly was in place for years before too . I would like this access to be continued . Please could you specify how this matter has been addressed ..

I would appreciate having my concerns addressed at your earliest convenience

With kind regards

Sarah Godden
