Hi Peter,

I can now confirm that we have received a side letter from BHAFC which addresses any concerns we had and that we now have no objection to the application.

Kind regards

Ric

Thanks Ric. Just to be absolutely clear, are you therefore saying that you have no objection to the application?

Thanks

Peter

Dear Peter,

Further to my email below. I can now confirm that we have received the drawings for Runway 02/20 and that the proposed new floodlighting is outside the protected surfaces for Runway 02/20. I can also confirm that they are outside the protected surfaces for Runway 07/25.

Kind regards

Ric

Subject: RE: AWDM/0171/14 - additional floodlighting at BHAFC training facility

Dear Peter,

We have some concerns regarding the additional floodlighting at BHAFC training facility, the true effects will not be known until after the clocks go back in October and under different weather conditions.

Whilst the lights specified do not have any leakage, until the masts are up and lit and , we won't know how invasive or otherwise this will be. We will try and get a letter from BHAFC confirming that 'if the lights are considered unacceptable to the Aerodrome as a danger to aircraft, they will be redesigned and adjusted to suit" at BHAFC's cost. The floodlighting must comply with the Air Navigation Order CAP 393 Section 1 Part 28 para 221 lights liable to endanger aircraft (see attached).

The drawings currently supplied only take account of Runway 07/25. The additional pitches to be lit are much closer to the Aerodrome and may also affect the protected surfaces for Runway 02/20. We have requested drawings for these and cannot comment further until these are produced.

Kind regards

Dear Ric

Are you able to let me have your formal response to this application yet? I'm in the process of writng the report for the 28 April Planning Committee and would like to include your comments. The deadline for the completion of the report is **tomorrow**.

Thanks

Peter

Dear Peter,

Thank you for reminding me. We are reviewing this as we have some concerns over the risk of potential confusion with the Precision Approach Path Indicators (PAPI's) and general aerodrome lighting. We will come back to you as soon as possible.

Kind regards

Ric

Dear Mr Bellfield

You were recently advised of the above planning application for additional floodlighting to a pitch on the eastern side of the new training ground site. I shall be grateful if you would let me know whether you have any concerns over the proposal in so far as it may impact upon the use of Shoreham Airport.

I look forward to hearing from you.

Regards

Peter Barnett
